

**LIFE CENTER**  
OF SANTA ANA

---

*Walking With Moms*

By: Katy O'Henley

# Introduction

This year, my friend Dotty Laster, created a Students for Life club at our school. This club is to promote choosing life over abortion. During our meetings, we pray the rosary for unborn babies as well as mothers facing such decisions. We decorated onesies at our last meeting and plan to make care baskets for pregnant women at our next one.

# How we got involved:

We contacted the Life Center in Santa Ana and scheduled a tour to learn more about the center. We brought big bags of toddler & baby clothes with us to donate. We were told the miracles they have experienced like women deciding to keep their babies just days before their scheduled abortion. We learned how to support and guide someone through a process like this. Shower them with God's love & grace and lead them to our Lord Jesus Christ.

## Volunteering

I really want to get even more involved in this center and truly make a difference in someone's life. I plan to go with my mom and help them sort the donations, fold the clothes or even become a pro-life mentor for a mother going through her pregnancy.

## Donating

I have been collecting my cousins and neighbors' grown-out baby clothes to donate to them as they are always in need of donations. I have also been saving up money to donate to the program.

# We care for CREATION

The Catholic Social Teaching being displayed in this project is “we care for creation”. I am fighting to save the lives of innocent babies whom God made in his image and likeness. We are called to lead the way of Christ and I intend on doing exactly that. As it says in the 10 commandments, “You shall not murder”. It is our duty to teach others that it is wrong and a sin to have an abortion after our world today has normalized it so much.

“Before I formed you in the womb I knew you,  
before you were born I set you apart; I  
appointed you as a prophet to the nations.”

—Jeremiah 1:5
