

I created cards to send to children at CHOC through Eagles for CHOC club at my school. I did this because I like to give back to this hospital frequently.

I helped clean up the beach through Surfrider Foundation Club. I did this because I love our oceans and beaches, especially the ones in Hawaii and California. I understand we need to help protect them and cleaning up the trash is a great place to start.

The Social Teachings of Care for God's creation and Call to Family, Community, and Participation are being displayed through my discipleship because I am helping care for God's creation of the beaches, and I am also helping the children in my Community through cards.
