

My Discipleship Display

By: Reagan Murray

How did I start/How will I continue

- I started serving and helping others with Cub Scouts
- I became a Boy Scout and am now almost an Eagle Scout
- I will continue serving through my Eagle Project which requires many service hours
- My plan is to recruit more people to serve along with me to help my community

Serra's Pantry

- Serra's Pantry is a food pantry in San Juan Capistrano
- They help fight hunger in our community
- They have been around for over 20 years and have given millions of meals to people in need
- I have volunteered there many times and helped package and give food to the less fortunate
- I also donate my organic fresh fruit from the trees I have in my yard

My Organic Fruit

- I have two avocado trees and a citrus tree
- Multiple times a year I pick the trees
- They produce so much fruit that we share with our neighbors and donate most of the fruits to Serra's Pantry
- Most of the fruit they get is old or impaired in some way, so they rarely get fresh or organic fruit

One Orange Tree Harvest

Catholic Teaching Being Displayed

- I helped the poor and vulnerable
- Some of the most vulnerable members of our society are facing hunger
- Some people must choose between food and paying bills such as rent
- Some people in California don't have the resources to pay for food, water, and shelter
- I donated my time to make sure the food they are receiving is good, packaged it, and made sure those who needed it were able to get it
- I also donated my resources by giving them the fruit from my trees
