

Isabella Bello

The Catholic Social Teaching that is being displayed through my VBS volunteer work is the Call to Family, Community, and Participation. VBS portrays this CST because of the service to the Holy Trinity community that my fellow leaders and I have participated in, whilst helping their children navigate and explore their faith. By teaching children about the wonders and amazing love that God expresses, we can help our community grow into a loving, and caring group. As leaders, our job is to help educate the children in our group about the passages and beliefs of Catholicism, and we do so with no reward. We work towards fulfilling the message of God, to teach others about Him, and do so for the well-being of our community.

These photos are a collection from my years as a VBS leader, and even one photo of me participating in VBS as a child. I have been going to VBS every single summer, and have worked as a leader for 5 years.
