

Discipleship Display

Jack Griffith

-
- For my discipleship display, I went to Family Assistance Ministries in San Clemente. I helped sort out produce and packed food boxes for low-income families.

-
- I worked here with my friends for about 25 hours in total. I met many people who like to help out the community and make other people's lives' better.

-
- I went to FAM because all the people there are really nice and share the same goals. They made the job fun and treated me like family. I also liked the convenience of it because it is not far from my house, so I was able to go multiple times.

Catholic Social Teaching

- The option for the poor and vulnerable teaching was displayed in my discipleship because I put the needs of the poor first. I took time out of my day to help pack food for homeless and vulnerable people to make their lives easier. I live a very good life, and many do not get the lifestyle I have so I try to help other people. Overall, it was a good experience and I got closer to God because of it.
