Pictures

Contribution

+ In these pictures you can see me serving the community through volunteer work. In the first slide I was shopping and donating clothes, toys, and blankets to families in need during the holidays. I worked through a organization named "Adopt A Family". In the second slide, you can see me and my mom serving at a church. We helped take care of kids and set up a party for parents of foster kids. This gave an opportunity for the parents of these kids to have a break while we took care of their young kids.

Catholic Social Teaching

- + Although all Catholic Social Teaching principles were used when I was volunteering, the one that most fits is the call to family, community and participation. Through both of my volunteer work in adopt a family and the foster kid program, I helped my community and families. I participated socially and felt called to help everyone in the community. I also sought for the well being and common good of all. I especially helped the poor and less fortunate.
