

# DISCIPLESHIP DISPLAY

By: Nicholas Tran

# Sjhhs Music Festival

I participated in and worked during the Sjhhs Music Festival of 2023. I decided to participate since I wanted to get closer to the people in the program and really wanted to take some charge in it as well. I helped by guiding students from different schools through our buildings, as well as helped set up stage for the different schools performing.

CCS Lenten Series

Call to Family,  
Community and  
Participation

## Call to Family, Community and Participation

This to me represents Call to Family, Community and Participation since the whole event was mainly handled by the students of the music program. We all held a responsibility to work our own event as a family and make sure it worked for everyone. After all the hectic situations we were put through, I can say that I definitely have grown closer to all of my classmates.
