

Family Service Project

By: Christopher Garcia

Family Prayer Night

We have Family prayer nights, so we can all gather together and spend some quality family time worshipping Jesus and thanking him for everything he gifts us in our everyday life. In this picture I am reading the Bible to my family.

Praying with my grandma

Here I am praying with my Grandma. Praying with my grandma is special to me because she could realistically die at any moment she's almost 94 years old and has lots of health risks including cancer. The rosa de guadalupe is very special to me because it reminds me of her.

Praying with my family

(Why I believe it's important to pray with my family)

Praying with my family demonstrates our faith, we are serving god through our prayers. It also fortifies our love for each other and god, its a chance to grow closer and stronger.

The bible

The bible is very important in our household we have a special place for it (as seen here in this picture) We take turns every week for a family member to read a page of the bible.
