

## Grace Maloney Year 2 Discipleship

In this picture we are working in a warehouse that brings in food and is sorted out to bring to people who can't afford to buy food. I am sorting avocados from a big bin, then from there we put about 6 avocados per food basket. Option for the poor and vulnerable.

This is a food bank that I volunteer with for my school. It provides food for the less fortunate. They fill baskets with many food options and have a designated pick up spot for the people to come and pick up.
