

My Discipleship by Olivia Jarvis - Little League Challenger Program.

The Little League Challenger Program is Little League's adaptive baseball program for individuals with physical and intellectual challenges.

I contributed by being a big buddy to help my little brother, Aaron as well as his friends who all have a special disability and need help on the baseball field.

My little brother, Aaron is 10 years old. He is down syndrome, autistic, wears a hearing air for has hearing loss in his right ear and is non-verbal.

I volunteer every Saturday helping these kids with different disabilities play at their baseball games. I especially help my little brother, Aaron out on the field and help him throw the ball to first base and need to help him hit the ball and run around the bases too. Watching these kids smile when they hit the ball and make it to home base, makes me feel good and happy that I am helping them have fun.
