

On Saturday, I volunteered at Mission Hospital. I help the nurses with various tasks and greet patients and their families. I volunteered here because I want to make an impact on those who need it the most at the moment.

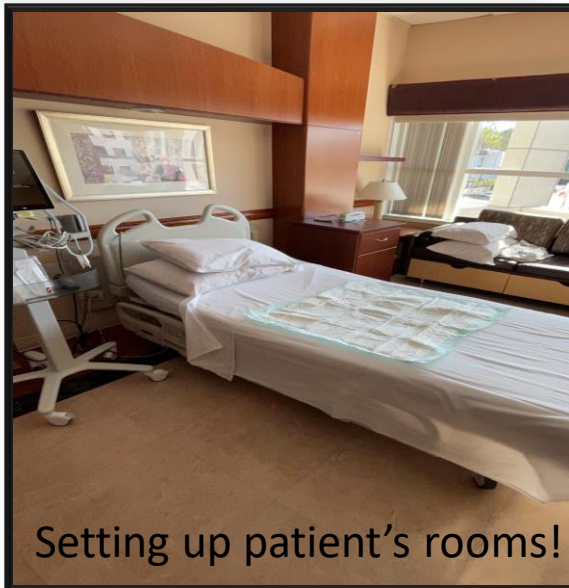

Working the front desk of the Maternity Floor at Mission Hospital.

This demonstrates the teaching of the Life and Dignity of another person because I am helping and caring for the sick and taking care of their needs, while keeping their emotions and opinions in mind.

Delivering food and other necessities for patients.

Setting up patient's rooms!
